WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut 107.5 wide x 108 tall, with a hasp tab 26 wide rising 32 above the top edge at the back corner.

Hasp slot 18 x 20: 85.5 to 103.5 from the front edge, 114 to 134 up.

Latch hole 19.5 mm: 92.5 from the front edge, 54 up.

Hinge rivet holes 3.3 mm: 7.5 from the front edge, 18, 54 and 90 up.

Fit: a stainless piano hinge on the front edge, riveted to the door and to the end wall; the door lies flat on the wall, 3.5 mm over the opening at the front and 5 mm at the back, 6 at top and bottom.

A thumb-turn cam latch in the 19.5 hole; its tongue turns behind the end wall. The tab goes over a flush padlock staple on the wall.

Check: the door shuts flat and the latch holds it shut.
